

Advanced Guaranteed Satellite Services

The Advanced Guaranteed Satellite Services delivers high-speed guaranteed economical performance, which makes it the ideal solution for large camps and companies demanding non-shared bandwidth. It is designed to enable businesses the ability to control and monitor their own networks. It also offers optional voice and fax services.

Features

- Clients can choose from 4 guaranteed full-duplex bandwidth levels
- Access to our online bandwidth usage report via Packeteer (allows clients to view mix of traffic and shows throughput)
- Users can prioritize which IP traffic or applications using their own QOS
- Offers economical voice solutions using your chosen bandwidth level. Moving up in bandwidth provides greater voice and data capacity options
- Enterprise network
- No data allowances or limits
- All protocols allowed
- Standard hardware supports all bandwidth levels - no need to upgrade
- High dedicated bandwidth with access to under utilized capacity
- Dedicated services with zero over subscription
- Each system traffic profile customized based on user needs

Service Levels

- 384 Full-Duplex
- 512 Full-Duplex
- 768 Full-Duplex
- 1000 Full-Duplex
